PREPARING FOR ADULTHOOD

This is a priority for the safeguarding partnership.

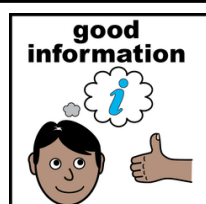

Planning and decision-making for each young person is carried out in a person-centred way.

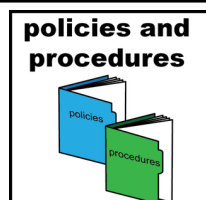

Support is coordinated with other relevant services and organisations.

Family/carers and the young person's network are supported with their role in preparing for adulthood.

The young person, their family/carers and network have access to the information they need.

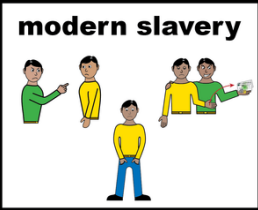

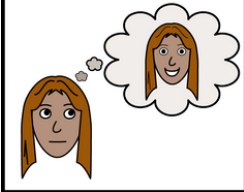

A preparing for adulthood plan starts at an appropriate age.
